### New York

NEW YORK, March 7 .- The upward movement of stock market prices, which began with the expiration of Congress, continued yesterday on a broader and more impressive scale. Technical conditions, especially the drastic liquidation of recent months and an attenuated bear position, conducted measurably to the further im-provement, in which rails almost alone failed to share.

More substantial gains were made by shippings, funitions and a wide variety of equipments, as well as specialties which must inevitably benefit by prevailing conditions at home and abroad. Coppers made further up-ward progress on reports that orders for the metal have been placed into the final quarter of the year.

### Grain and Produce.

CHICAGO, March 7 .ments that exports have been much larger than was generally supposed had a good deal to do yesterday with substantial upturns which took plaie in the wheat market. Closing quotations were firm and %c to 2%c net higher, with May at \$1.59%@1.90%, and July at \$1.59@1.59%. Other commodities, too, scored gains—corn, 114c to 2c, oats, 14c to 4c, and provisions 2@5c to 12c.

## Oil and Gas.

With a depth of snow not eualed this winter, the starting of new work in to a standstill. The roads are in many places blocked with deep drifts and teamsters refuse to try to haul faterial to the fields.

Were lost the first of the week just after the bits were in the Big Injun sand. Fishing is being done and it is hoped to have the well completed soon.

Light wells are the result of the late completions in all fields. mile north of Big Isaac, on Meathouse Fork, Greenbrier district, Doddridge county, W. Va., the South Penn Oil company drilled No. 8 on the W. O. Sommerville farm into the Gordon stray and it is showing for a five-barrel pumper. On Dents run, Man-mington district, Marion county, the anchor Oil company has drilled No. 5 on the Peter Metz farm into the Thirtyfoot sand. The hole has filled up 1,

Wife claims husband is tied to

disturbed. He works all day and most

Edison regards himself simply as "one of the boys" at the big plant at East Orange. When he turns up in the morning with his chemical-stained khaki jumper and his duster on, and his battered brown soft hat resting on his ears, he punches the time clock like the rest of the gang.

Today he got on the job at 9:21. Last night, the time sheets showed, he quit work at 7:51. Yesterday was a "short A pacifist at heart, he has spent work at 7:51. Yesterday was a "short all his life fashioning things for the day," I was told.

betterment of mankind. But now that

It is understood Edison is now spend-

ing most of his time on naval warfare work for Secretary Daniels. While he often visits the scattered labora-Edison's friends are sure that when tories, his really intensive thinking he climbs again on the reason-wagon is done in a rather ranshackle hut in the park some way from the main building.

In this cell-like seclusion, puffing steadily at an evil-smelling corn cob, and surrounded by a jumble of beak ers, retorts, test tubes and lathes Edison is confidently believed to be evolving something that will make up for the unpreparedness from which this country is now suffering.

If he does, he will not get all the credit himself, for he confessed at his recent birthday dinner that he could all kinds. Address "You can't see father these days," not have kept up the pace for so many said Charles Edison, his son. "He is years had it not been for the watchon a rampage of work, and mustn't be ful care of Mrs. Edison.

# Saves Eggs

missed.

Royal Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, cornbread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by adding an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following tested recipe is a practical illustration:

1 oup ougas 6 oup water 8 oggs 2 teaspoons Royal Baking Powder i oup flour i teaspoon salt é oup sold water

SPONGE GARE DIRECTIONS:—Bell ougs? and water until it poins a thread and add to the citilly beaten whiths of eggs; beating until the mixture is cold. But together three times, the four, and and alternately is the white mixture with the young of the eggs beaten util. Add is one of the eggs beaten util.

The old method called for 6 eggs and no baking powder

made from Cream of Tartar, derived from grapes, and adds none but healthful qualities to the food.

No Alum

No Phosphate
